Jeff Koenings, Director
Department of Fish & Wildlife
600 Capitol Way N
Olympia, WA 98501

Dear Director Koenings:

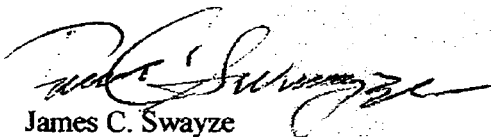

It is an often held belief that whenever a citizen deals with an agency of government, that the response from that agency is to be negative, to not assist the citizen, but to impart to him what cannot be done rather than seek to assist with a solution.

It is my pleasure to apprise you to the contrary with regards to my encounter with a member of your agency here in Ellensburg, Washington.

Brent D. Renfrow, a habitat biologist, with you local office assisted me in obtaining an agreeable solution to a problem I was having with my drive that encounters a creek. His attention and consideration of my problem was exemplary and I wish to convey to you and to him my sincerest gratitude for your guidance and assistance in achieving a successful solution.

Please extend to Mr. Renfrow my gratitude.

Sincerely,

James C. Swayze
